# BEST Development Roadmap

Development / Evolution	Done	Dec 18 / Jan 19	Jun 19 / Jul 19	Dec 19 / Jan 20
Support Pack releases, usually once a quarter - Continual functional improvements. - Bug fixes.				
<u>S/4 HANA certifications for 1511, 1610, 1709</u>	●			
<u>S/4 HANA 1809 certification (dependent on ICC)</u>		●		
<u>BEST Fiori reporting dashboard (development in testing)</u>		●		
<u>BSR (BEST Statement Reader) Tracker in SAP (for general release in R5SP02 in January)</u>		●		
<u>Investigate SAP Cloud for possible BEST Cloud offering</u>			●	
<u>New BEST GL recons and clearing module</u>				

# BEST Ongoing SAP Certification

- BEST is a SAP Partner with ongoing SAP ECC Certification:

**SAP Certified**  
Powered by SAP NetWeaver

# What Is The S/4HANA Fuss About?

- HANA is the name for SAP's new in-memory database.
  - -> It's all about **speed** – processing times thousands of times faster, from hours to seconds.
- S4/HANA is the new SAP product that takes advantage of speed to do things like:
  - -> Drastically reduce **month-end close times**.
  - -> All finance data in one massive table and reported on easily in seconds: no more separate CO-PA, split GL, BI etc – **reporting** on the fly in core SAP.

# BEST S/4HANA Certification

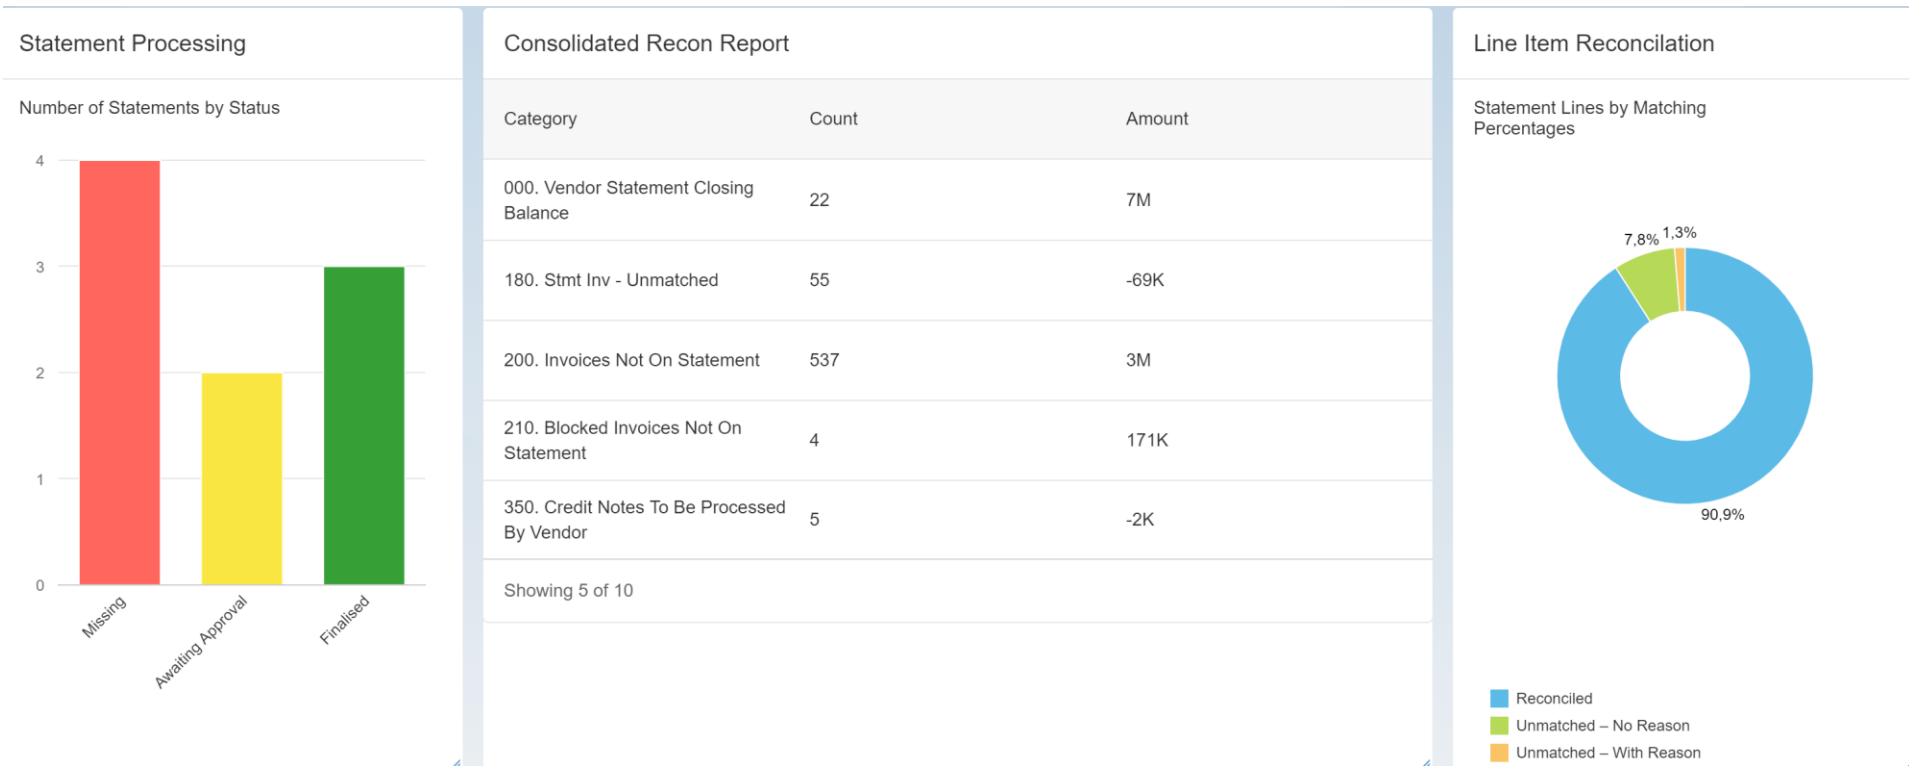

- Already achieved SAP Certification for S4/HANA releases 1511, 1610, 1709:

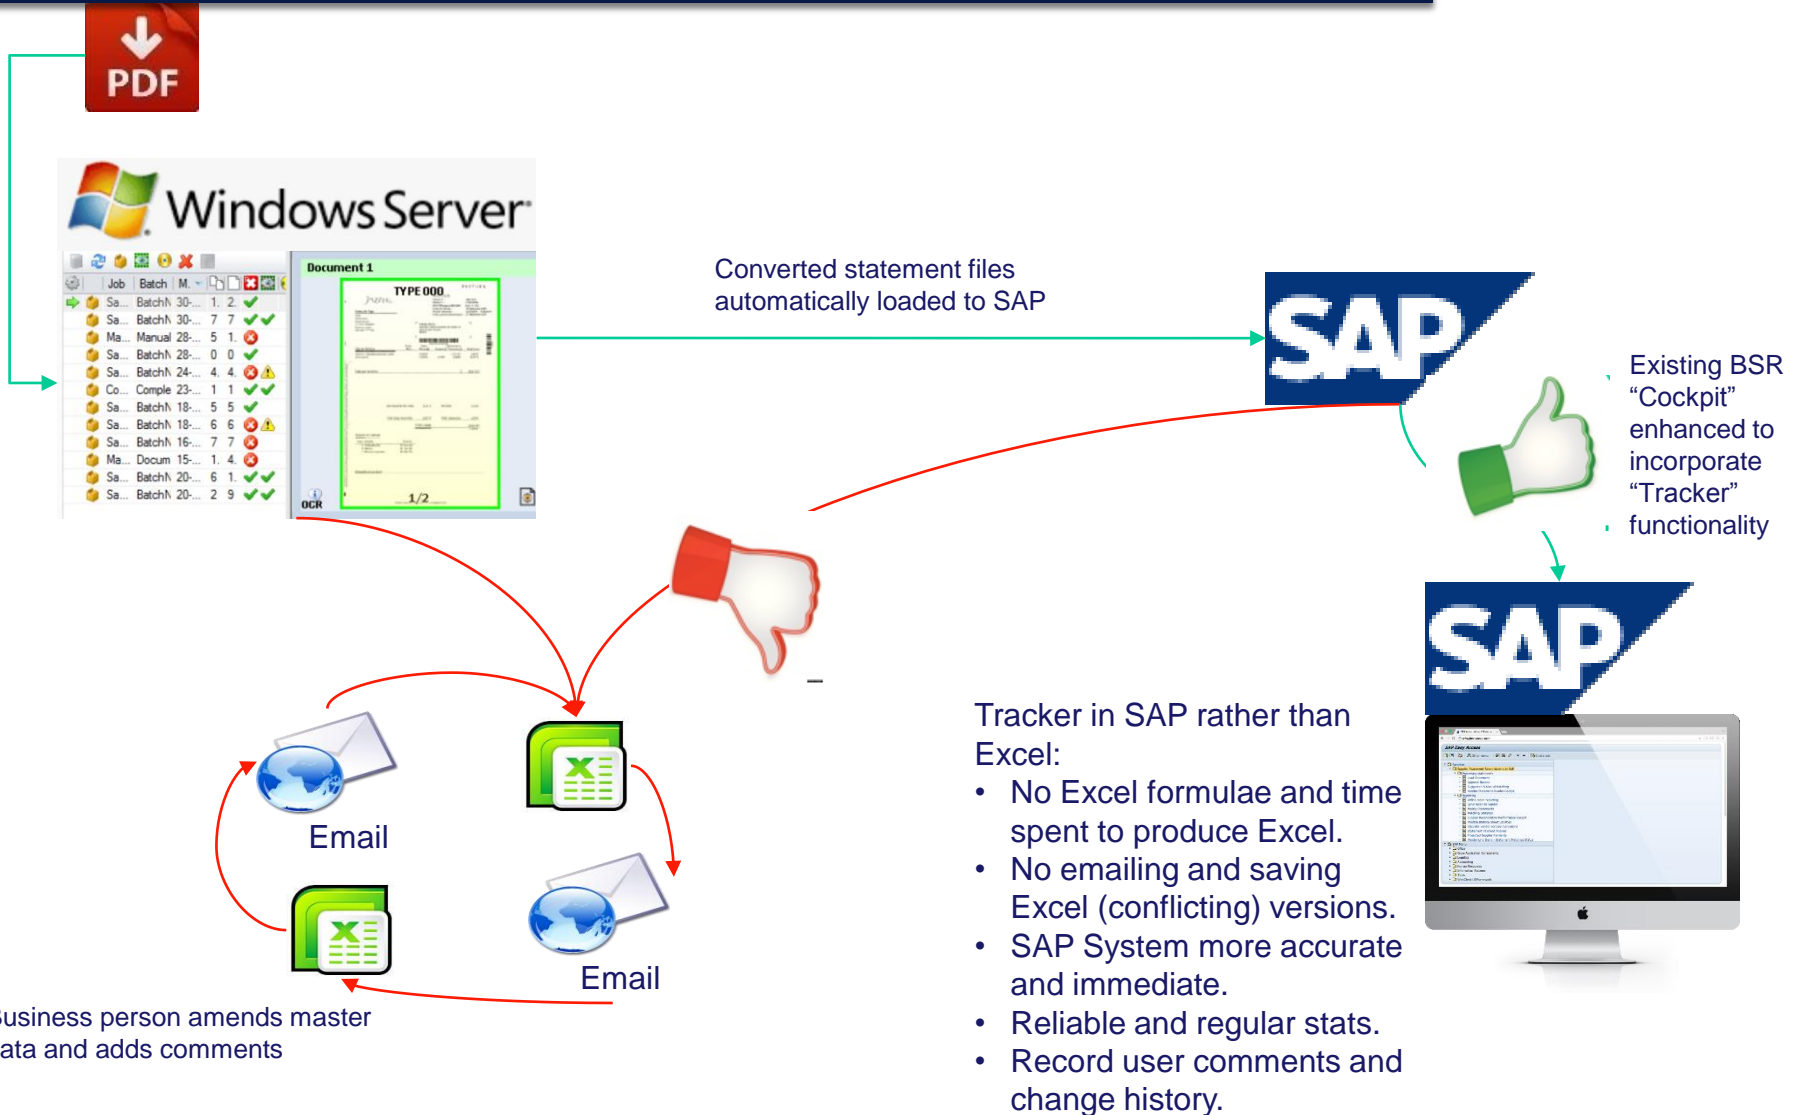

- S4/HANA 1809 released end September 2018, but certification only available a few months after.

# BEST Fiori Dashboard

- Fiori is SAP's modern new web friendly interface.
- User friendly screens.
- Accessed using PC, mobile device etc via the Internet.

# BEST Statement Reader Tracker

# BEST on Cloud

- Currently all BEST clients have an “on premise” installation, i.e. on client SAP system.
- New alternative is BEST solution housed on secure SAP Cloud, not client SAP system.
- Solution is still SAP with same BEST screens.
- Also for non SAP systems.
- Know how to do it technically – in discussions with SAP to be able to offer commercially viable SAP licensing.
- Can offer BEST Statement Reader (BSR) and BEST Statement Portal (BSP) modules on cloud to start.
